WORLD CLASS INFRASTRUCTURE

COMPUTER LABORATORIES

The principal objective of a properly-equipped computing lab is providing students with help that improves their chances of completing their work. Our college is home to two modern Computers Laboratories with more than 100 computers that are technologically advanced and have advanced configurations, that are connected through high-speed LAN and internet services using wireless connectivity. By doing this, students can develop their hands-on skills and enhance their skills in learning.

LIBRARY

We have a well-stocked and large library that offers an extensive selection of books from all over the world and journals covering Science management IT, Commerce, Fashion & Arts which are accessible to faculty & students. Tirupati College library collection includes more than 12000 titles along with the most recent reports, magazines subscriptions, as well as other information every day, to provide an update on our Education Industry.

CONFERENCE ROOM

To encourage self-employment/Entrepreneurship amongst students Government of Rajasthan has supported us in the establishment of Incubation Center where we are mentoring and developing students to build their startups. The Conference & Training Room is ideal for meetings, seminars and training sessions and is well equipped with built-in data projector, overhead projector, internet services & interactive smart boards.

DIGITAL SMART CLASS ROOMS

Each department has its own smart classroom that is well-equipped and individual. Smart classrooms help to modernize the traditional education system. Through better concept formation and concept elaboration, as well as improvement in reading skills, it provides excellence education for students.

To ensure that learning happens in a fun and stimulating environment.

JOB PROFILE ORIENTED TRAINING

Job profile oriented training is a crucial part of management education. In this type of training, students choose a specific domain to specialize On-the-job training is necessary for every student in a business establishment. It helps the trainee perform the job comfortably and understand the procedures involved in their particular field. This form of training is the most effective and most cost-effective way to teach a specific job. It is an excellent option for those who don't have the resources to hire a trainer or hire additional staff. This type of training can help those who are new to a particular field or are unsure of what they should expect from their new position.

On-the-job training is often essential for new student's who need to be trained in specific equipment, standards, or procedures in the workplace. In addition to the basic skills, OJT can help new student adjust to a new location or technology. It can also be used to close performance gaps. It may be structured as coaching or mentoring. In addition to being beneficial for student, on-the-job training can benefit career development. On-the-job orientation aimed at acclimatizing newly selected students to the methods and processes of their new workplace. They are given a job description, a set of rules and procedures, and told about their immediate superior and subordinates. This orientation is essential to the smooth functioning of the workplace. In addition, it ensures that the trainee will be able to do their job well.

TRUST PLACEMENTS

The Placement cell at TCTE has been operational for the last five years to facilitate the placements and summer internship of the pre-final / final year students. The Cell has been successful in achieving good success rate in generating employability for the students in the region.
